JULY 11th, 2012
Membership Meeting
Featuring Guest Speaker
Ladd Sullins
VP of Operations**

Eagle Energy Company of Oklahoma, LLC

***The Horizontal Mississippi Lime
It's Real and It's Spectacular***
Presented by Ladd Sullins, VP of Operations
Eagle Energy Company of Oklahoma, LLC
Review authored by Angela Butler

Ladd Sullins, VP of Operations at Eagle Energy Company, filled in for Steve Antry to give the presentation on the Mississippi Lime Play at the Desk and Derrick Club of Tulsa's July 11th, 2012 Membership Meeting. Mr. Antry was called to go to NYC to touch some things and turn them to gold. Ladd did a *spectacular* job filling in for Steve. Ladd should be prepared to be on call for Steve until August 12th because I hear London calling him to the games!

Ladd Sullins, a native of Seminole, Oklahoma is a graduate of the University of Tulsa with a baccalaureate of science degree in Petroleum Engineering. He worked at Newfield Exploration Company as an operating and completion engineer a couple of years before landing a position at Steve Antry's 2009 start up venture, Eagle Energy Company. At 27 years of age, Ladd can boast that he is one of the founding fathers of one of the fastest growing exploration and production companies in the country.

Eagle formed in the fourth quarter of 2009 and spudded their first well in March, 2010. Four Hunton wells were drilled before moving to the Mississippian. Then Eagle spudded their first well in the Mississippian in June 2010 that began a two rig program starting in July 2010. Eagle is currently drilling their 60th Mississippian horizontal well.

Eagle has increased through additional leasing. They currently run a four rig line. Eagle has 77,000 net acres in Northwestern Oklahoma, mostly in Woods County but including acreage in Alfalfa and Seminole Counties. Plus, Eagle holds 5,500 acres in East Woods County in Kansas.

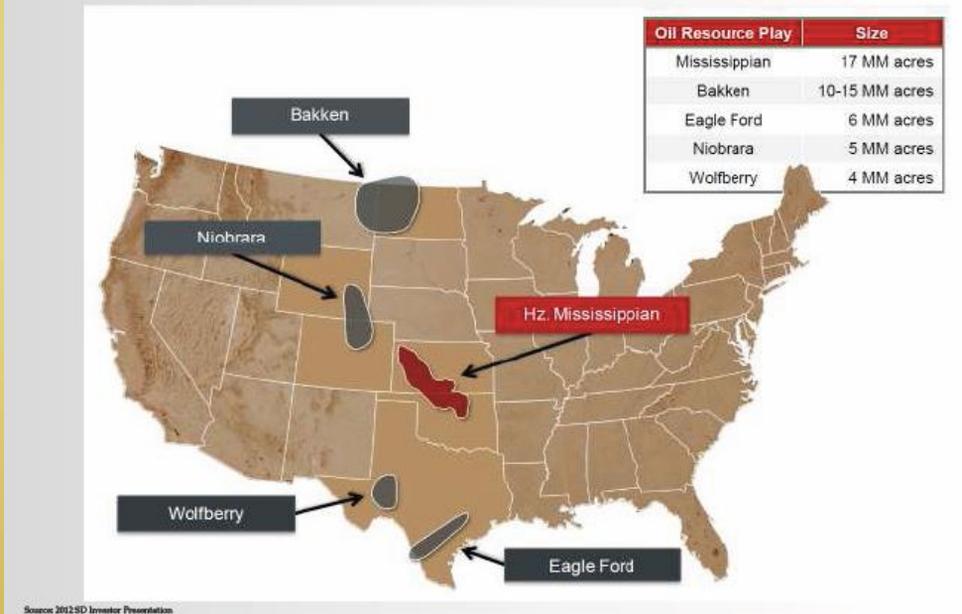

Eagle works with SandRidge Energy, a pioneer and leader in drilling and production in the Horizontal Mississippi Trend, to develop successful low risk drilling strategies. There is significant existing available infrastructure in the legacy production fields. Technological improvements allow for horizontal locations to be staked on top of thousands of old vertical wells. New wells are being completed at low costs of \$3-4 million per well. Rigs are abundant and require only 1,000HP. Drilling times improve with experience at an average of 24-30 days from spud to first sales.

Eagle Energy LLC CEO Steve Antry (right) stands with operations manager Ladd Sullins atop a sand hopper at the Avard 1H-31 well in Alfalfa County
Picture collected from Tulsa World

***“The Horizontal Mississippi Lime
It’s Real and It’s Spectacular “ Review continued***

The Horizontal Mississippi Trend

The area offers mostly production of liquids with around a 50% oil rate. With lots of oil, the area is comparable to the Bakken Play. Eagle is currently producing from 39 wells at an average ultimate estimated recovery of 635 barrels of oil.

Vertical wells provide control. Limestone, Dolomite and Chert offer 10-15% porosity; 35-65% water saturation; stacked porosity wedges; and a monoclin dip. Better porosity areas show vugs and dolomite rhomb development.

With high permeability; a carbonate reservoir, and 17,000 vertical Mississippian data points, no seismic is needed. Eagle has been working off of mud logs. Fracture stimulating has been performed using fresh water and acid with one stage per 300-400 feet of lateral and 9-10 stages per well. Ottawa sand proppant is plentiful. 10,000-12,000 hydraulic HP pressure pumping for completions in contrast to 40,000 needed in deeper, tighter unconventional plays.

Momentum has increased dramatically in the last 18 months in the Horizontal Mississippian Formation. Eagle Energy Company continues to soar

JULY MEMBERSHIP MEETING MINUTES

July 12, 2012

By Susan Cook, Acting Secretary

President Thelma Dunn welcomed members and guests to the July Membership Meeting of the Desk and Derrick Club of Tulsa. The President introduced those who were seated at the head table, including our guest speaker who would be more formally introduced later. Besides our speaker's guest from Eagle Energy Co. of Oklahoma, we had one more: Diane Linthicum, WPX Energy, guest of Pam Cabbiness.

Dee Jansen gave the invocation. President Thelma invited guests to start the buffet.

After lunch, Parliamentarian Marilyn Trout advised that a quorum was present. The business meeting was called to order at 12:02 p.m.

TREASURER'S REPORT: VP Gaye Marrs read the report, which will be filed.

VICE-PRESIDENT REPORT:

VP Gaye Marrs mentioned that a sympathy card was sent to Kay Williams and a thank you note was received from Natalie Adams. Laredo Petroleum offered several job opportunities during the month. A notice was sent out to the membership to check their website for more details.

SECRETARY'S REPORT:

President Thelma announced that Susan Cook had volunteered to be Acting Secretary until someone accepts the job full time. She also encouraged members to respond to the request for help that Red Earth Club sent last month and the request made by Anna McBeth, Region VI Director-Elect, for volunteers from Region VI to Chair ADDC Committees for 2013.

FUNDRAISER COMMITTEE REPORT:

President Thelma Dunn presented prizes for the top two Members who sold the most tickets: Colleen Dosser (1st) and Linda Collie (2nd).

PROGRAM

Program Chairman, Kris Russell introduced our speaker, Mr. Ladd Sullins from Eagle Energy Co. of Oklahoma, topic being "The Horizontal/Mississippi Lime—It's Real and It's Spectacular". Kris Russell presented him with gift and informed him that the club will be making a donation in his name to the Educational Trust Fund.

NEW BUSINESS

The door prize winner was Virginia Calhoun.

President Thelma announced that our Treasurer, Lorena Shingleton, resigned. Any volunteers?

President Thelma asked for an update on the WIP contest for ADDC Convention. Chairman, Kay Williams provided such. Our club will be submitting three photos for the contest.

President Thelma announced plans for our Summer Social: a murder mystery at the Church of the Madalene, with catering by Hatfield BBQ. Watch for flyer soon.

Meeting adjourned at 12:38 PM.

August 2012

Dear Desk and Derrick Members,

August is here, and it is HOT! HOT!! HOT!!! Triple-digit temperatures for days and days in a row!! That's not new, but what is new is our upcoming August Summer Social on the 8th of the month. Shelly Gravitte and her committee have set up an ultimate murder mystery and dinner. The play is "Curse of the Phantom Cowboy", and Hatfield's Burger and Barbecue is going to cater the event. I am looking forward to our social. We are going to have a rootin' tootin' good time!! So grab your cowboy gear and come on out and join us!!

I am also pleased to announce that we have a full Board of Directors again. Susan Cook has agreed to be our Secretary and Kathy Farris will be our Treasurer.

I would like to remind everyone of the ADDC Convention being held in Oklahoma City September 19-23. Red Earth Club has done an outstanding job of setting up field trips and seminars for the Convention. To me, one of the most interesting field trips will be a Chesapeake campus tour with stops at Core Lab, 3-D Seismic Visualization Room, and Gas Control Room, lunch at one of Chesapeake's restaurants, and virtual rig tour with Q&A sessions. Please be sure to register by August 24th. The registration package can be found in this edition of the bulletin.

You all try to stay cool until we meet again!!

~~ Thelma

August 2012
Letter No. 8

Dear Region VI Members,

I hope this letter finds everyone staying cool during this hot, hot summer. As we all know we have experienced record high temperatures this summer and therefore extremely high energy bills; but take heart, fall is getting closer with each day. With that being said, as we all know, fall means school starting and all the excitement that brings for all involved. I hope that all members who have school aged children or college students in their households are getting prepared and excited for a new school year and anticipating all the educational opportunities that will bring.

Fall is also a time for Desk and Derrick clubs to begin our final push for membership growth. As co-workers return from vacations and as we all settle into our fall pattern of work and activities please encourage anyone you work with who may not know about Desk and Derrick or who have been considering joining, but have not yet joined, to sign up or at least attend a membership meeting as a guest. They will then be able to see all that Desk and Derrick membership has to offer.

The 61st annual ADDC Convention is drawing closer and closer with each passing day. We are about 6 weeks away from the convention in OKC, OK. I hope that everyone has completed their registration and sent it in as the deadline is fast approaching. If you have not yet completed your registration please take a moment, RIGHT NOW, to complete it and send it in; you will be very disappointed if you miss this year's convention as it is going to be one of the most exciting conventions ever.

I am looking forward to seeing all of you at the convention in OKC and I continually feel blessed and honored to serve as your Region VI director.

Have a great Labor Day holiday. Keep your feet on the ground and keep reaching for the stars as you continue to travel the routes of energy. I look forward to meeting you all at the crossroads of energy in OKC in September.

Until next month

Sincerely,

Mark Loch

This has certainly turned out to be a very challenging summer, weather-wise. Areas - such as Texas – which experienced drought last year, are being inundated with rain; Colorado is being devastated by wild fires; and our eastern states are still recovering from severe storms that affected power and water services for weeks. Please keep all of our ADDC friends in your thoughts – and provide whatever assistance to these areas you can within your community.

President-Elect Marilyn Carter is seeking volunteers for 2013 ADDC Committee chairmen and regional representatives. Step up to serve the Association and learn more about the inner workings of this great organization. You can download the form on the ADDC website or contact your Region Director or Marilyn Carter for a copy of the form and the committee descriptions and general duties.

Please take time at your club's meeting, if you haven't already, to discuss the proposed amendments to the ADDC Bylaws and Standing Rules and the qualifications of the 2013 ADDC Board slate of officers. Your delegate will be voting on these items and your ideas and opinions are valued.

If there is anything you want addressed at the 2012 ADDC Pre-Convention Board meeting, please contact your Region Director or the respective committee chairman. The Board will be energetically reviewing the year's activities and addressing issues that have come up during 2012 as we prepare for 2013.

Have you sent in your registration for the 61st Annual ADDC Convention yet? Yes? THANK YOU! No? Well, what are you waiting for??? There are many wonderful educational opportunities awaiting you in Oklahoma City and the Red Earth Desk and Derrick Club members have done a remarkable job of organizing fun, interesting, and challenging activities for every member. And, there are activities to keep your family engaged while you are participating in the Desk and Derrick events. Looking forward to seeing you in Oklahoma City at the Crossroads of Energy!

The Tulsa Oil Drop

Editor's August 2012 Letter:

Dear Members,

I enjoyed Eagle Energy Company's presentation at the July Membership Meeting. It was a pleasure to meet Ladd Sullins who filled in for Steve Antry. But, I was a bit disappointed that I did not get to see Steve again. I was anticipating shaking hands with him in hopes that his Midas touch would rub off on me. Being an Okie gal, born and bred, it does me proud to see a fellow native like Steve doing so well in the industry and for our country's domestic energy production.

I am looking forward to the Summer Social. It is sure to be a hoot! I've never been to a murder mystery event. I plan on getting into the spirit of the event by wearing a cowgirl hat that I recently purchased last month at "Woodyfest" in Okemah. Put on yer duds and I'll see y'all there!

The ADDC Convention in September sounds like another well planned, educational, and entertaining Club event. I hope many of you get to go and enjoy all the fun things that the Red Earth Club has worked so hard to prepare. Once again, I will be knee-deep in academics and won't be able to attend.

Another exciting local event is the Fourth Annual Tulsa Pipeline Expo running August 27th through 29th. I hear the expo has doubled in size. I'll bet on the same for next year. It is good to see a local annual petroleum exposition that is thriving. I believe a forerunner of the current event was the International Petroleum Exposition which brought our beloved "Golden Driller" to town. He has been a permanent Tulsa resident since his visit in 1959.

With all these wonderful industry events happening in our area this month, it is hard to think of wandering off too far on vacation. And, the best part is that they are all air conditioned!

Sincerely,

Angela Butler
