## COUNTDOWN TO REGION MEETING – COME ONE, COME ALL!

Final preparations are underway, but it's not too late to participate in the final touches of the 2017 Region Meeting at Postoak Lodge. There are still plenty of rooms available in a venue designed to encourage getting to know your neighbor.

We still need a Recording Secretary and a Publicity Chair.

Several committees, such as Registration and Hospitality, will need help throughout the weekend, while members from across Oklahoma and Kansas come together to learn new things.

### Greater Knowledge

### Greater Service

**March is Desk and Derrick Awareness Month!**  
This is an "open to the public" meeting, so please join us to see what we are all about!

## Drilling Mini-Series

Kristie Luchtel Ferguson has graced Tulsa's Desk and Derrick Club with several informative and entertaining presentations over the years. This year, we are excited to have her join us for a two-part presentation. If you missed Part 1, don't worry, there is still plenty to learn in Part 2.

### March 8<sup>th</sup>, Part 2:

***Vertical to Horizontal drilling - Learn how to make the pipe bend and straighten while navigating landing points.***

Kristie Luchtel Ferguson provides over 20 years of technical and applied petroleum Geology experience in both conventional and unconventional plays throughout the world. She received her education in Geology (B.S) at Oklahoma State University, Geologic Oceanography at Humboldt State University, and Petroleum Geology (M.S.) at the University of Kansas.

After several years with Exxon then ExxonMobil, she returned to Oklahoma with Samson Resources and then Newfield. In 2013, she left NFX to start KLF Geological, LLC, which is located here in Tulsa. Kristie splits her time between Tulsa and Dallas where she is the Vice-President of Geology for Springbok Energy.

Kristie is an active member of AAPG (HoD delegate), TGS (past president), TGS Foundation, and the OSU School of Geology Advisory Board (Past Chairmen). She is married to Steve and they have two young sons, Hayden (8) and Leland (4) who love to go out in the field and play on the rigs.

### MARCH Luncheon Meeting

Wednesday, March 8, 2017  
at 11:30 a.m.  
**The Summit Club**  
15 W. 6<sup>th</sup> Street  
**31<sup>st</sup>** Floor of BOA Building  
Downtown Tulsa  
**\*Free Parking**

Luncheon Includes: Buffet, Tea,  
Coffee & Dessert

NOW ACCEPTING CREDIT CARDS!

#### **New Cost:**

Members-\$27  
Non-Members-\$32

Make your reservations

**NO LATER THAN**

**5:00 p.m. on Friday,  
March 3<sup>rd</sup>.**

[reservations@tulsadandd.net](mailto:reservations@tulsadandd.net)

\*Parking garage entrance off  
Boulder. Get ticket and have it  
validated at check-in.

If you have need for **CE hours**, please inquire at check-in or email:

[deejansen142@gmail.com](mailto:deejansen142@gmail.com)

Members and guests **must** make a reservation for meal functions. Please RSVP to the Contact Chairperson @ [reservations@tulsadandd.net](mailto:reservations@tulsadandd.net) no later than the Friday prior to the meeting. Members may attend the meeting only – no meal - for no fee, but **please** do let the Contact Chairperson know ahead of time.

***All attendees need to make a reservation.***

## PRESIDENT'S LETTER

### Desk and Derrick Club of Tulsa

#### Networking in Tulsa, regulatory update on coal mining

Dear Members,

Spring is in the air, and the seasons are changing. Soon we will enjoy warm walks outdoors and see flowers grow and green Bermuda grass return.

It's also "earnings season" where many of our employers and their competitors release an annual report showing production activity and profits and losses. I wanted to take a moment to remind us all to have a moment of gratitude for braving the past two years of uncertainty and unrest in Tulsa's job market. This affected quite a few of our members, but the local market is turning the corner. Let us be grateful to have the employment we need and to also consider lending a hand to help others still looking for work. Perhaps you can make a difference in someone's life by helping them network to their next job. Lending a helping hand through networking is a core value of the Desk and Derrick Club and a key benefit of membership.

An energy-related regulation was lifted in February. The Stream Protection Rule of 2016, finalized under the outgoing administration, was repealed in February. President Trump signed a congressional bill repealing the rule that required a buffer between coal mining and streams, imposed restrictions on how to dispose of dirt moved during mining, and required an initial study and post-monitoring of local impacts. That 2016 rule had put over half of the nation's untapped mining reserves off limits! Having worked in Kentucky for a coal- and gas-powered utility company as a regulatory accountant and having visited coal mines as an auditor, I am grateful for this repeal. A renewed regulatory certainty helps mining companies move forward with expansion and hiring plans. On a personal note, my relatives depend on the coal mining, horse racing, banking and local retail to spur economic development for them to continue to have jobs. Isn't it amazing how certain regulations can quickly change job prospects and families' lives?

In March, go make a difference in your network of friends, support and learn about our industry's regulatory issues, and be the best employee you can be!

Until next time,  
Jonathan

## February Presentation Recap

### Turning the Bit to the Right...Making Hole

Presented by Kristie Luchtel Ferguson

Written by Gay Wheeler

How do we get oil and gas to the surface? Who determines where to start drilling the well? What does POOH mean? These and many other questions were answered by Kristie Luchtel Ferguson, a 20 year veteran in the petroleum geology field. Kristie gave a very informative presentation at the February 8, Desk and Derrick meeting. Her curiosity about nature and how things work piqued her interest to become a geologist. With enthusiasm and humor, she educated us about the process of "Making Hole".

The first step is determining where to drill the well. Geologists and geophysicists use seismic testing and various methods to establish where oil and gas are likely to exist. When the spot is selected, a wooden stake with a flag is driven into the ground. Then the site is surveyed and drilling permits must be obtained.

Next the rig location is built, where it is sometimes necessary to build roads and remove trees. Thus, the drilling company makes an agreement with the land owner to compensate for surface damages resulting from preparing the surface for installing the drilling rig and the associated equipment. Each rig requires a certain amount of space to set up all of the necessary equipment, such as generators, mud pits and shale shakers. This is called the **surface footprint**.

The drilling contractor provides the drilling rig and the crew to run the rig 24 hours a day. The crews will work either 8 or 12 hour **tours**, which is pronounced "towers". The rig manager, or **toolpusher**, oversees all the crews and is responsible for all equipment and operations. The **driller** monitors the drilling progress and manages the crew. A **derrickhand** looks after the pumps and mud system and climbs the derrick to guide the pipe into the structure. The **motorhand** looks after the engines and other machinery. The **roughnecks** handle the drill pipe on the rig floor, as well as mix drilling mud and work on equipment.

There are two types of rig systems. The rotary rig, which was introduced in the 1920's, is most commonly used for drilling on land. Top drive rigs are used for offshore drilling. The rotary rig is powered by large diesel engines and electric generators. The electrical power drives the hoisting system, or **drawworks**, which supports the rotating equipment. The **swivel** is a large handle that holds the weight of the drill string and allows it to rotate. Below that is the **kelly**, a four or six-sided pipe that transfers rotary motion to the turntable and drill string. The turntable, or **rotary table**, is powered by the electric motors. The drill string consists of 30 foot sections of pipe, also called a

## Turning the Bit to the Right...Making Hole

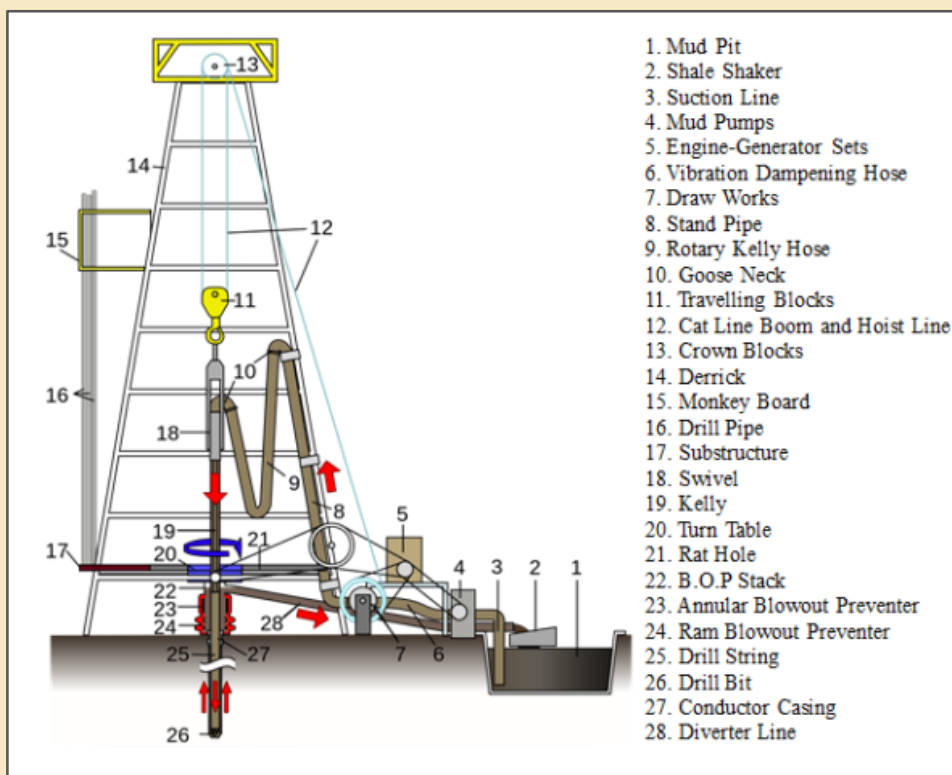

(continued from page 5)

**joint**, and each section weighs about 450 pounds. Drill pipe will begin to bend at about 100 feet, so **drill collars** are placed down hole to help keep it straight. Drill bits come in many shapes and materials that are specialized for various drilling tasks and rock formations.

The mud system is an important component of drilling a well. Everything from the success of the well to the lives of the crew depends on mud. The mud keeps the drill bit cool as it is cutting through the rocks. Mud is used to lift the rock cuttings to the surface and into the **shale shaker** to be separated and sent to the cuttings pit, or **possum belly**. Most importantly, the mud keeps the oil and gas from coming up the well. They also install a **blowout preventer, BOP**, which is a large, specialized valve used to seal, control and monitor oil and gas wells to prevent the uncontrolled release of hydrocarbons from a well.

Now that we have all this equipment and the crews assembled at the site...HOW DO WE MAKE HOLE? The drill bit and pipe is lowered to the spot where the geologists first placed the wooden stake and the kelly begins turning to the right. The drilling crew begins the process of **tripping in**, drilling 30 feet then making another connection. This is called tripping in hole...**TIH**. Removing the drillstring from the well bore is called **pulling out of hole...POOH**. Kristie stated that a typical 10,000 foot well could trip in and out of hole 27 to 40 times. Kristie answered questions from the audience during her presentation, then concluded with several videos of tripping out on a top drive rig.

Don't miss part 2 of her presentation on horizontal drilling at the March 8<sup>th</sup> luncheon meeting.

As you can see ...

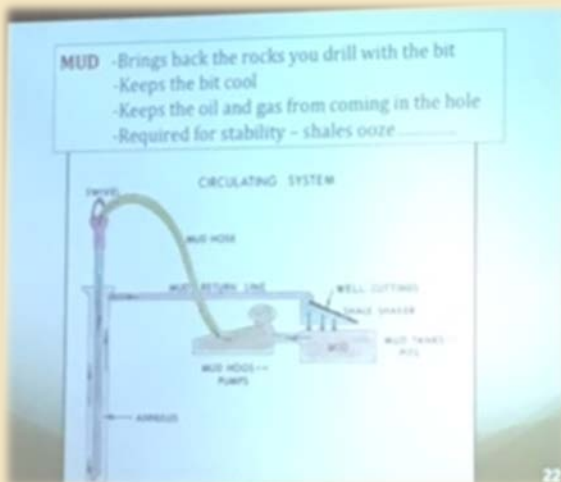

enjoys sharing

Kristie always

her vast

knowledge and experiences

**DON'T MISS Part 2, Wed., March 8<sup>th</sup>!**

# Strike a Pose

## VISION MEETING SUMMARY

### Vision Meeting 1/11/17 SWOT analysis results by Laura Louser

<b>Strengths:</b>	<b>Weaknesses:</b>
seasoned members	low membership
variety of members' employers and professions	not enough experiences to attract younger age groups
membership meeting location	lack of open forum member communications
golf tournament	clique
tulsa, ok industry presence	long meetings
networking/mentorship	need new involvement
community service	expense/time of commitment/stepping up
interdisciplinary learning/speakers	staying inside D&D's box
website/newsletter	lack of new memberships/diversity
smaller organization	
national parent organization	
employer sponsorship/support	
<b>Opportunities:</b>	<b>Threats:</b>
education	perception as an older organization, and/or members' ages & women's group
D&D representation at industry events	industry downturn
collaboration with other organizations (e.g. Petroleum Club?, OIPA, AAPG, TEPE)	lack of company sponsorships
sponsor more member registrations	lack of members' attendance
field trips/learning (e.g. visit to Cushing)	diminishing membership
encourage guests	not progressing
technology/social media to reach more people (e.g. LinkedIn & Facebook)	old school
member idea box	inner club "drama"
hosting region meeting	time
community events/service club representation (e.g. Mayfest)	stuck in a rut - need new approaches
mentorship	
volunteer/leadership opportunities	
learn new skills / get outside your box	
networking/mentorship/friendships	
support in tough times	
other aspects of industry	

(continued from page 9)

**Vision Meeting 1/11/17**

**Recommendations**

by Laura Louser

Priorities	Recommendations
<b>recruit new members</b>	
	encourage guests (incentives: free or lower cost meal with limit, gift card drawing, etc.)
	social media marketing
	market at industry/community events
<b>lack of open forum member communications</b>	
	social media members can post comments & communicate with other members
	anonymous idea box
	transparency from board to members
	networking activity during membership meetings
	new members assigned volunteer mentors
<b>expense/time of commitment/stepping up</b>	
	committee recruitment / combine committees
	prioritize & cut tasks/responsibilities with low benefit compared to cost/time commitment
	board meetings physical attendance not required (conference call)
<b>lack of members' attendance</b>	
	shorten meeting time
<b>community outreach &amp; education</b>	
	committee

# SPOTLIGHT

## *Welcome New Members*

**Jake Sherman was approved by the Board on 2/27/17. Jake is employed with IHSMarket where he is an Account Manager for Field Direct. Desk and Derrick was recommended to him by his boss and he contacted us through the website. Welcome Jake!**

#### SPECIAL MEETINGS

**2017 Region VI Meeting:** April 27-30, 2017 in Tulsa, OK ***Volunteers needed!***

**66<sup>th</sup> Annual ADDC Convention:** September 20-23, 2017 in San Antonio, TX

## 2017 MEMBERSHIP DRIVE:

Our 2017 Membership Drive will provide 3 opportunities to benefit, not only our current members, but also our new members.

***The membership drive will begin Wednesday, February 8<sup>th</sup>, 2017  
and end at 5:00pm Friday, March 31<sup>st</sup>, 2017***

What are the benefits? Well, other than helping to strengthen our membership and the future of the Tulsa Club with “new blood”, a renewed energy and more volunteer participation ....?? Who could use a \$25 Reasor’s Gift Card??

The Membership Committee will be giving away  4 Reasor’s Gift Cards worth \$25 each!! (only one per qualifying person) as follows:

### **FOUR \$25 Reasor’s gift cards:**

**1. One card for Current Member drawing.**

(Current Member must have submitted their 2017 renewal and paid dues. Member must “sponsor” 1 or more New Members during membership drive period.)

**2. One card for New Member drawing.**

(Potential New Member must have a 2017 Membership Application and dues submitted to the Board no later than Mar. 31<sup>st</sup> and be approved by the Board at the April 3<sup>rd</sup> Board Meeting.)

**3. Two cards to be awarded**

(One card to the first **two** Current Members who “sponsor” 3 or more Approved New Members during the Membership Drive.)

3.a. If more than two Current Members qualify, all qualified will be put into a drawing - two drawings for one card each.

3.b. If no Current Member qualifies, the Current Member sponsoring the most Approved New Members will receive one \$10 Reasor’s gift card.

***Drawings will be held at the April 12<sup>th</sup> Membership Meeting.  
Must be present to win.***

***Only one gift card per qualified person will be awarded.***

**Questions? Contact Membership Chairman, Kay Williams at [kwms53@yahoo.com](mailto:kwms53@yahoo.com)**

## **TULSA IS HOSTING** **2017 REGION VI MEETING** **April 27-30, 2017**

Printing	Vicki Barnes
Field Trips	Beth Johnson
Sponsorships	Kay Williams/Vicki Barnes <i>(committee: Val Bode)</i>

We need **VOLUNTEERS** to help make this Region meeting a success. Please contact the Chairman listed above for the committee on which you would like to chair or serve.

**Come help us share Tulsa's great Oil and Gas History!**

## Special Invitation

### 62nd Annual Region VI Meeting Hosted by the Desk and Derrick Club of Tulsa April 27-30, 2017

Region VI Director Wendy Sparks and the members of Desk and Derrick Club of Tulsa proudly extend an invitation to each of you to join us for the **62nd Annual Region VI Meeting** held April 27th through April 30th in Tulsa, Oklahoma. We will gather at a relaxing, peaceful venue at the POSTOAK Lodge and Retreat.

The Region VI Meeting will be filled with excitement and many aspects you will never forget. Attendees can gain knowledge through a Geology Certification Seminar and will hear from two interesting speakers on Saturday.

Registration, hospitality and hotel check-in will be available from 4:00 P.M. – 6:30 P.M. on Thursday, April 27th. Zipline tours are available daily and can be arranged by calling Postoak's front desk at (918) 425-2112. On Thursday evening, we will gather and enjoy a dutch treat meal at The Rusty Crane restaurant in downtown Tulsa. Friday field trips have been scheduled to visit: (1) Osage Windmill Farm with a stop for lunch at Grill 125 and shopping at The Pioneer Woman Mercantile in Pawhuska or (2) Grand River Dam Authority Pensacola Dam with a stop for lunch at an Amish farm in Choteau. Friday evening will be a fun-filled Social at the Lodge. We plan to offer BBQ dinner, human foosball, volleyball, bonfire and a cash bar.

The entire Registration Packet, including a printable Registration Form, can be found [here](#). For your convenience, *Club Members can register and pay online [here](#), or click [here](#) for guest registration.* Registration fee includes the Friday evening Social, the Saturday Industry Appreciation Luncheon, the Awards Banquet, as well as snacks. This packet contains hotel information and more details about all the activities.

The hotel accommodations are at POSTOAK Lodge and Retreat, 5323 W. 31st Street North, Tulsa, Oklahoma. (918) 425-2112. The Lodge is set on 1,000 wooded acres and located 5.7 miles north of downtown Tulsa. Hotel-style room options include either one queen bed or two double beds

for the cost of \$109 per night (plus tax). Rooms hold up to 2 guests and include a refrigerator and microwave in the common area. This rate includes two continental breakfasts per room. Be sure to ask for the Desk and Derrick Club of Tulsa rate when making your reservation.

**Online Registration  
now available, and  
is SO EASY!**

### Please NOTE:

Embedded links ([here](#)) are not active in this publication. Please refer to the **Special Events** link in the upper left corner of the **Welcome** page of the website, [www.tulsadandd.net](http://www.tulsadandd.net)

### Editor's Comments

*by Kay Williams*

Dear Members,

We are heading into the changing seasons, and our Board is happy to present many changes coming to our Club. We are striving to make new advancements in our Technology, our membership processes, our meetings and presentations and our ways of building and promote our organization.

As with many changes, there are bound to be negative ripples which will need adjustments over time. We ask your patience and help in making these transitions as smooth as possible. We welcome your constructive comments and suggestions.

Our Vision continues to be the betterment of our Club for better service to our members. Please feel free at any time to contact one of our Board Members to discuss ways you think we can improve.

P.S. Check out these interesting and informative websites.

[www.tulsadandd.net](http://www.tulsadandd.net)

[www.addc.org](http://www.addc.org)
