Monthly Meeting

Keynote Speaker

Kumar Krishnan

President & CEO, Service & Technology
Corporation

~ Presenting ~

**“An Overview of the STC Family of
Companies—Engineering, Design and
Manufacturing for Oil & Gas”**

We are pleased to host Kumar Krishnan as our March speaker!

Headquartered in Bartlesville, STC is a consulting engineering firm staffed by well-educated and experienced engineers in various disciplines, such as chemical, mechanical, electrical, civil and structural. They are supported by designers, drafters, estimators, and other complementary personnel.

SMC provides complete custom manufacturing services, operating under the motto *“If you need it, we will make it!”*

Kumar was raised in India and earned his Mechanical Engineering degree from Wichita State University. He will also share information about the Bartlesville Lincoln Elementary School Scholarship (BLESS) Fund.

PRESIDENT'S LETTER

PURPOSE — *You'll find courage in connecting with your "why?"*

Dismissed by the "experts" of his day, self-taught geologist Patillo Higgins courageously pursued his conviction that oil reserves existed under geologic formations known as salt domes. On January 10, 1901, Higgins and his team halted drilling as a geyser of mud, natural gas and oil shot 150' into the air – Spindletop had been unleashed and was soon producing close to 100,000 barrels a day!¹

Driven by a purpose to make energy available to all citizens to create a better quality of life, human ingenuity and precision of extraction methods prevailed. Fossil fuel reserves helped to replace whale oil, saving this mammal from extinction, and spurred the growth of the Industrial Revolution of the 1920's.

I am reading *The Moral Case for Fossil Fuels* by Alex Epstein and it is challenging me to unapologetically share how fossil fuels make modern life possible. Epstein concludes, "It is only thanks to cheap, plentiful, reliable energy that we live in an environment where the air we breathe, the water we drink and the food we eat will not make us sick and we can cope with the often hostile climate." Energy and ingenuity make resources out of once-useless raw materials – to build critical infrastructure, provide homes, hospitals and medicine, and take families to soccer practice and destination vacations. Can you imagine a life without fossil fuels?

You could have a career in any industry, but you chose energy. It is important to proudly advocate the right to have our energy jobs and the importance of everyday products created by fossil fuels. Watch and share the two minute video "Can you go a day without fossil fuels?" by Prager U on your social media platforms. It is a great tool to show how our daily life is powered by oil and gas.

You are invited to attend our February 19, 11:30 am luncheon at Hotel Indigo featuring Jake Sherman, Account Manager with IHS Markit discussing trends in production data management. Lunch is \$27 and you can RSVP by emailing reservations@tulsadandd.net. Jake is offering a separately-scheduled Microsoft Power BI hands-on session at the IHS Markit office for luncheon attendees.

With so many activities clamoring for our attention, how does Desk & Derrick stay relevant, mentor new members, and fulfill our educational purpose? Your Board is working to bring speakers this year with expertise in upstream, midstream, downstream and industry services to educate that ENERGY IS LIFE. Join us as we focus our "20/20 Vision" on February 27 at Mexicali Border Café Downtown at 6:00 pm. Bring your ideas to help us connect with our "why?" and to courageously SOAR into the new decade.

CHEERS!

February 2020

It is hard to believe January is gone just like that. Now here we are in February, just days away from Valentines Day, the day we associate with *love, romance, happiness*. I'm reminded of my elementary school days, when we took shoe boxes and decorated them with hearts to make our special box to collect Valentines from our classmates. We personally addressed Valentines to everyone in class, asking them to be our Valentine. Since I don't think I could possibly find time now to address over 1,000 Valentines to my Desk and Derrick family, I'll simply ask here...will you be my Valentine?

The ADDC Board is ready and will meet for the annual Budget and Planning Meeting, February 8, 2020. After this month's B&P Meeting, a summary of details will be posted on the ADDC Website for member review or publication in club bulletins.

Speaking of the website, if you haven't logged in and set up your login yet, here are some quick tips...

- If the email address you were using with the old website is no longer a good email address for you, please contact ADO so they can update your email address in the database so you will be able to complete your initial login. You can email ADO at ado@addc.org or call 405-543-3464.
- If your email address hasn't changed, or once ADO updates your account with a good email address, go to the website www.addc.org and click on *Member Login* on the right at the top of the web page. Your username for the website should be your firstname, a period (.), and lastname, ex. *keith.atkins* . Then click the *Forgot your password?* link under the *Login* button. On the *Password Reset* page, enter your username or email address then click *Reset my password*. Remember, the password used on this page must match the email address in the membership database, which is why it is important to have ADO update your email address if you have a new one since last year.

There is so much on our website to help clubs and members. The *Committees* area has committee guidelines and reports. The *News & Publications* area has monthly committee news, as well as the monthly ADDC President and Region Director newsletters for club bulletins. The *Clubs* and the *Region* areas have helpful information on club and region related issues. These are resources designed to help us. Let's start using them.

The Marketing/Publications Committee will soon publish our ADDC Blog. The blog is a way for us to post ADDC, Region, Club, or member news to get the information quickly to our membership. If you're like me, you aren't familiar with how a blog works, but I assure you, we will be passing along helpful information to guide us all into the 21st Century for real-time relevant communication of information.

Club presidents will soon be receiving information to share with their members, but I'm going to touch on it here so more members will have the very important information. ADDC has been receiving requests to pay for the unauthorized use of digital media, usually pictures, in publications posted directly to, or linked to the ADDC website. Most of us have believed if we find a picture on the internet, it's free for use in our club bulletins or other publications. We were wrong. There are online businesses that search the internet for images that have been used without the permission of the copyright holder. There are some websites that have pictures that are free to use. The information being sent to clubs will have information on these websites. The quality of the images may not be as good, but at least they are free and won't cost you, your club, or the Association a fine for illegal use. If you take a picture, you are the copyright owner. Posting that picture without your permission, equates to copyright infringement. If you post a picture that includes people, you technically must obtain their permission to publicly display the picture with them in it. The world is getting more complicated each day. Just be careful of what you publish in your club bulletin.

Sadly, we've recently learned of the disbanding of the Ohio Valley and Edmonton Clubs. We also heard the Red Earth Club in the Oklahoma City area will be voting on disbanding soon. These are challenging times for our organization. Please be vigilant in working on membership retention and recruiting in your clubs. It will be vital to our survival!

February 1 is the due date for membership renewals and dues to be received at ADO. Your club's membership chair is responsible for gathering renewal forms and dues so the club can submit to ADO. February 15th is the deadline to submit proposed changes to ADDC Bylaws and Standing Rules. March is D&D Awareness month so start planning your membership drive or other club marketing initiative now!

Until next month....

"Well done is better than well said." Benjamin Franklin

Central Region Members,

February is here and an early spring is predicted! The second weekend in February brings Budget and Planning meeting in Tulsa, Oklahoma where the Board will be looking at the budget to work towards making this a prosperous year for ADDC. The Board is very dedicated to you, the Association members. They each have a tremendous amount of personal leadership, enthusiasm and passion to bring to this Association!

Soon all Central Region President's will be receiving a special surprise in the mail, make sure you are looking out for it! The 2nd Central Region Meeting will certainly be packed full of opportunities and be well worth your while and money well spent! The Dallas club has been working diligently to get everything set up to make a very educational and entertaining time for all!

Remember, March is Desk and Derrick Awareness Month. Start making plans to invite a prospective member to your next meeting and inform them of the invaluable educational and networking opportunities available. Share your passion and excitement, tell them why you became a member and why you are still a member!

Shelly McCool
